A fairly straight forward opening hole. The fairway slopes from right to left, so aim at the large bunker on the right. The second shot may need one more club than you think!

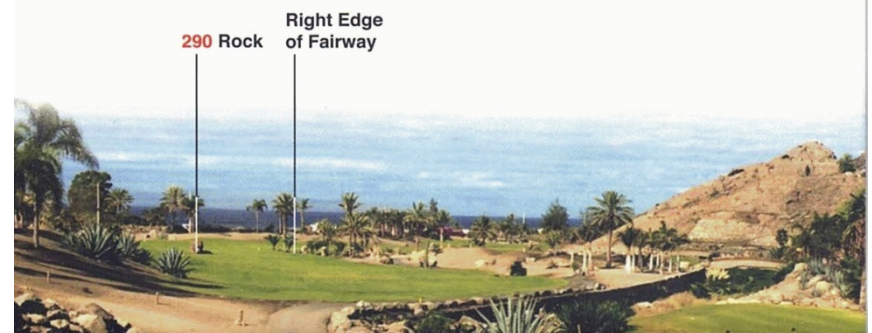

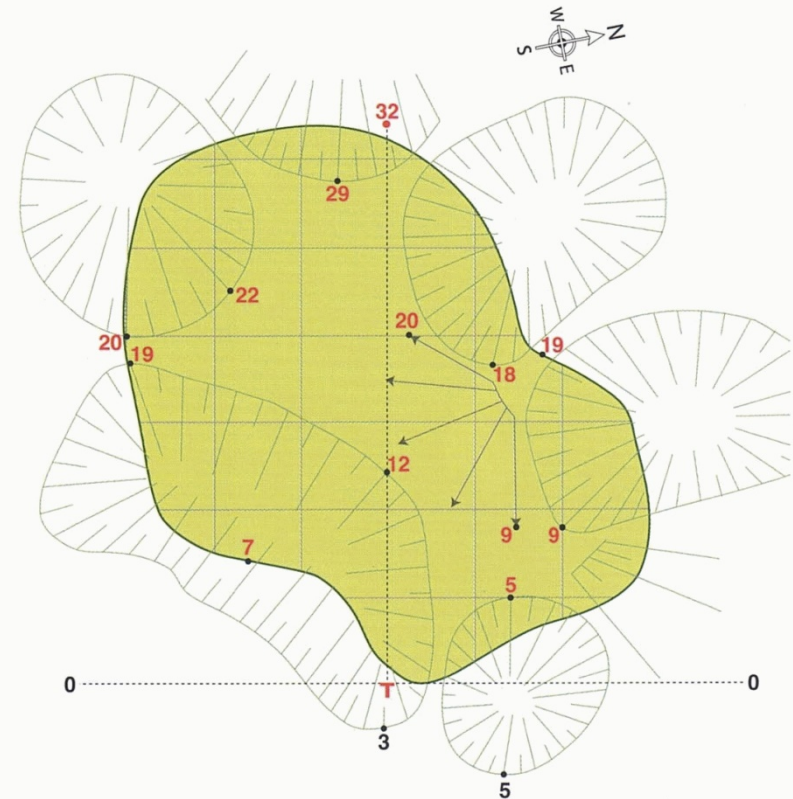

2

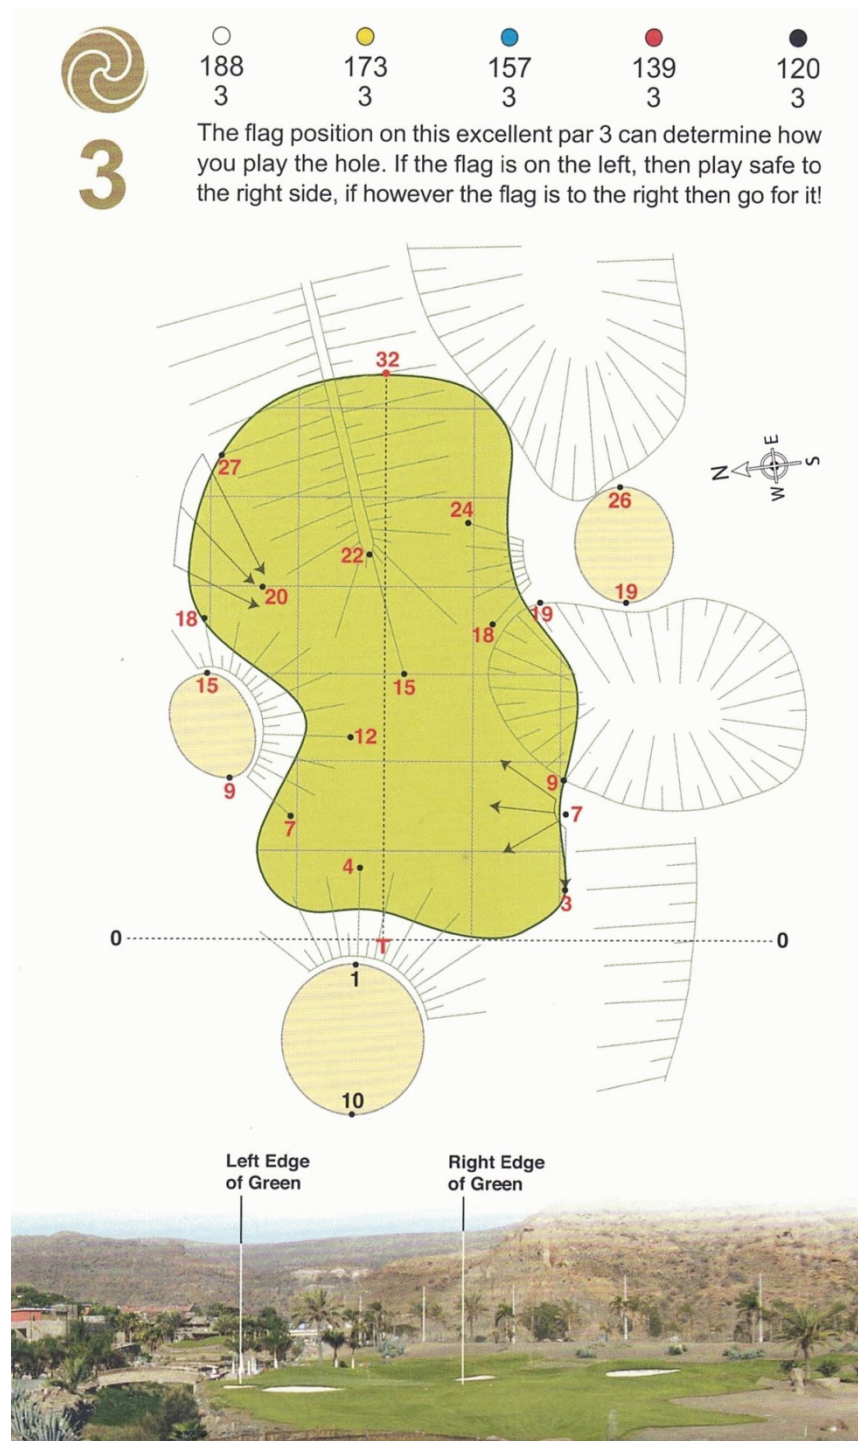

2

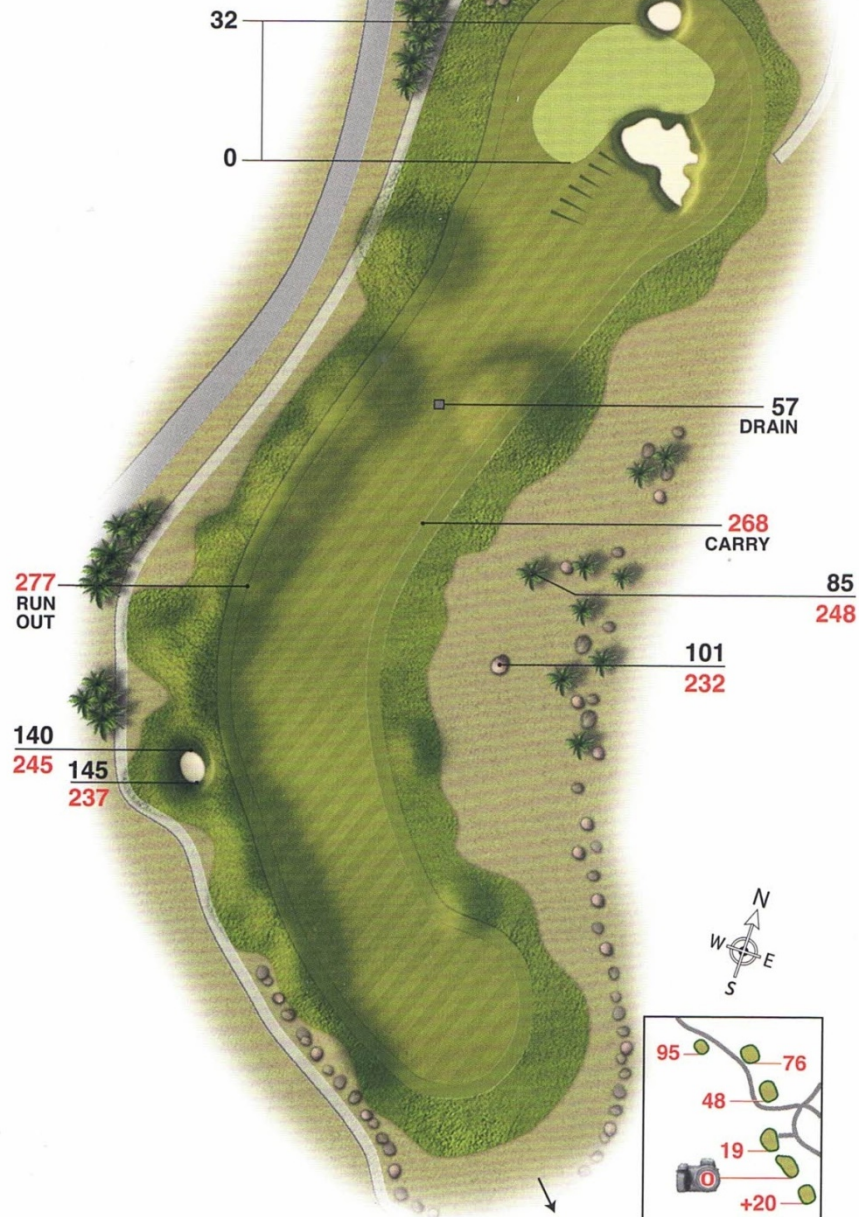

563	500	471	455	405
5	5	5	5	5

The longest hole on the course and one that needs to be played carefully. Don't try and take off too much of the dogleg on your second shot. The green is very subtle; take your time reading your putt.

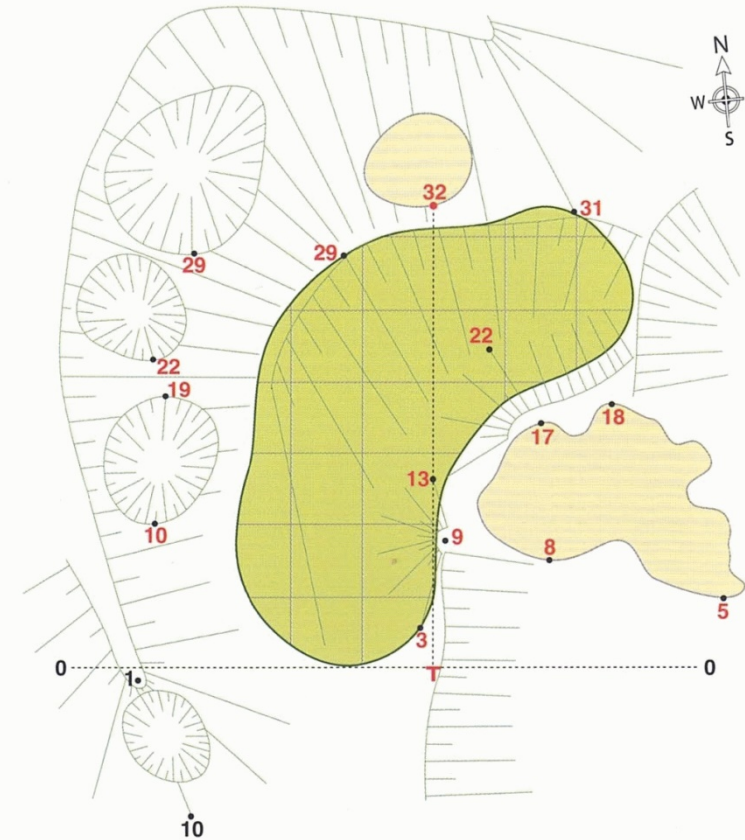

4

4

395	375	355	326	281
4	4	4	4	4

A high teeing area gives a full view of this dogleg right par 4. Again as with the second hole, don't try and take off too much of the corner. Aim the second shot to the left part of the green as it slopes quite sharply from left to right.

369	351	311	287	261
4	4	4	4	4

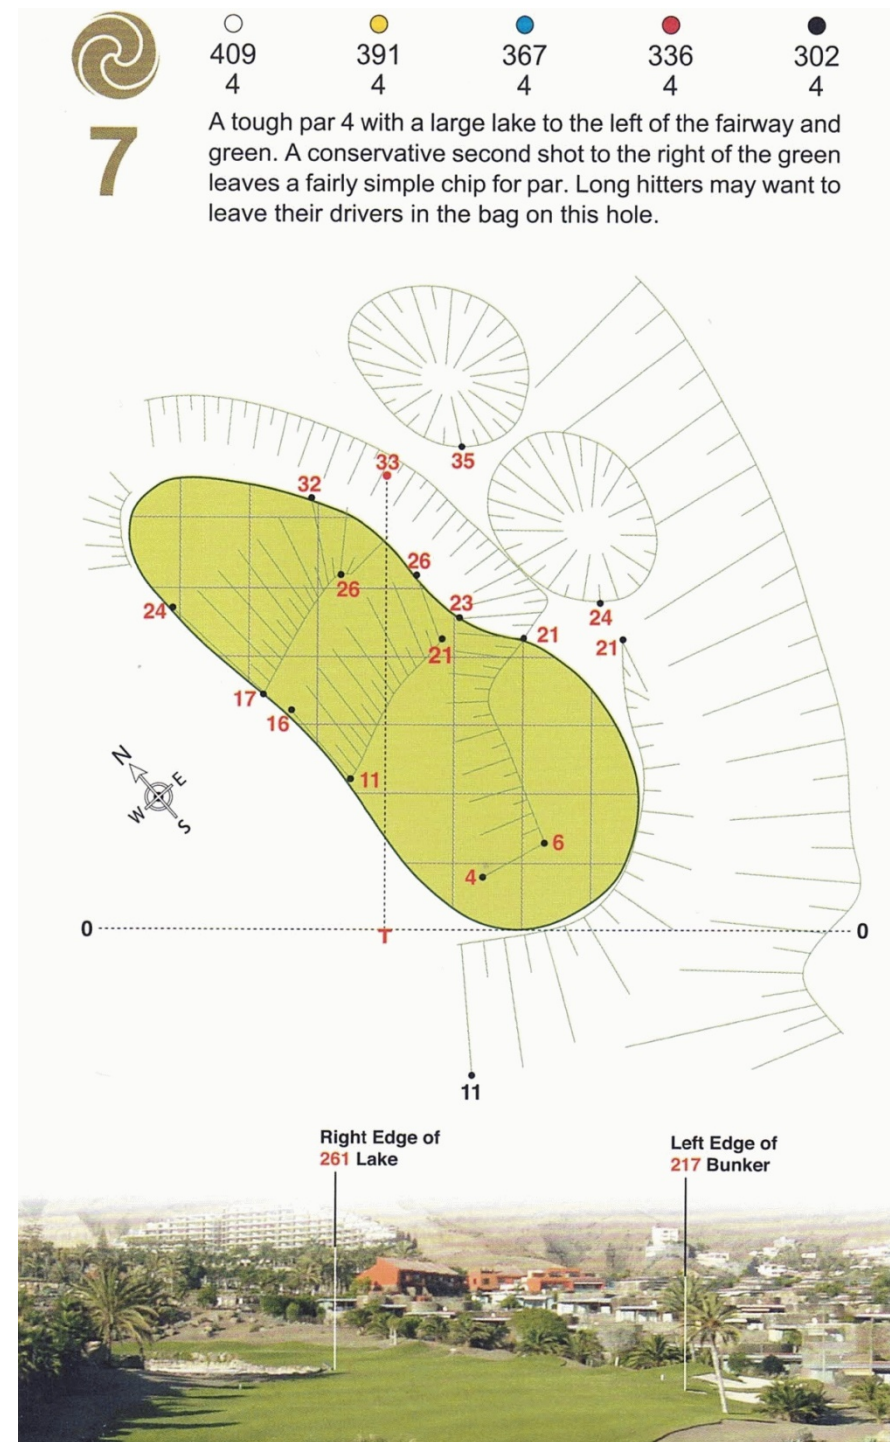

A straight away par 4 fairly uphill to a very sloping green from back to front. Try and leave your approach shot below the hole.

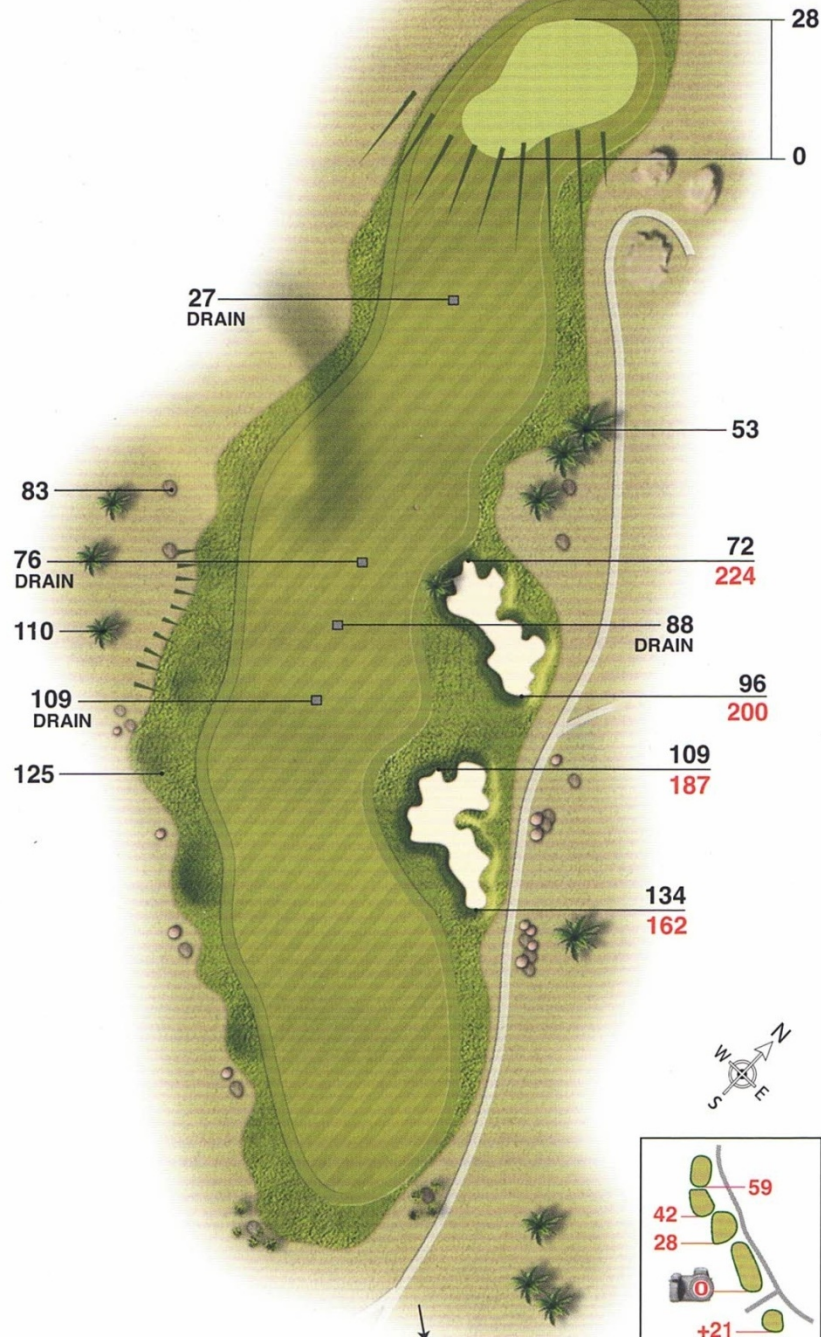

6

A superb par three with a very large green. Depending on the flag position and the prevailing breeze, club selection could vary 3 to 4 clubs! Always take more than you think.

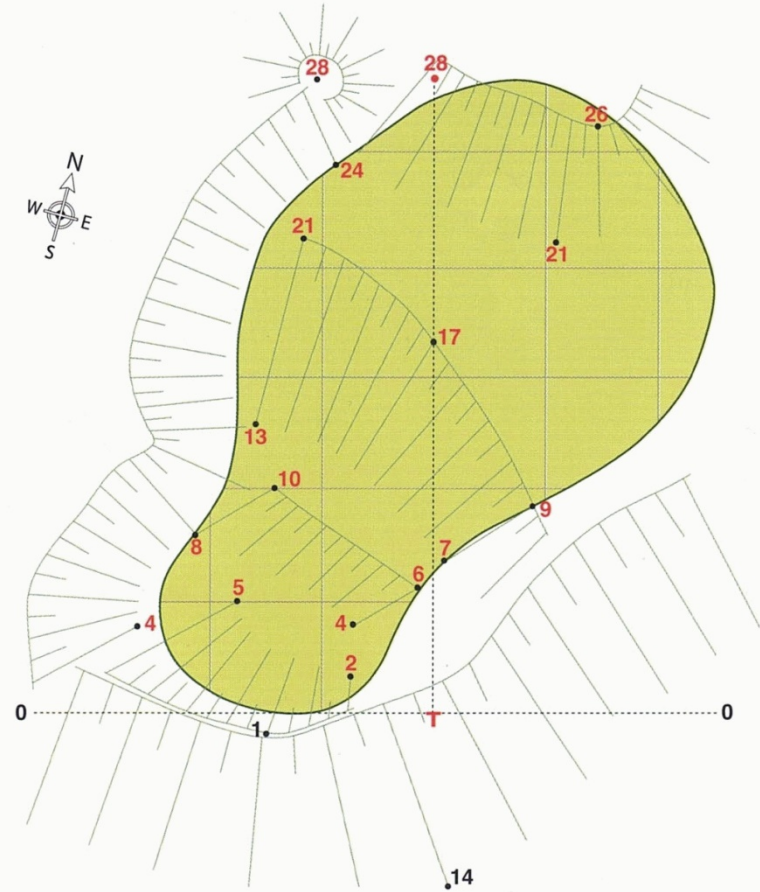

8

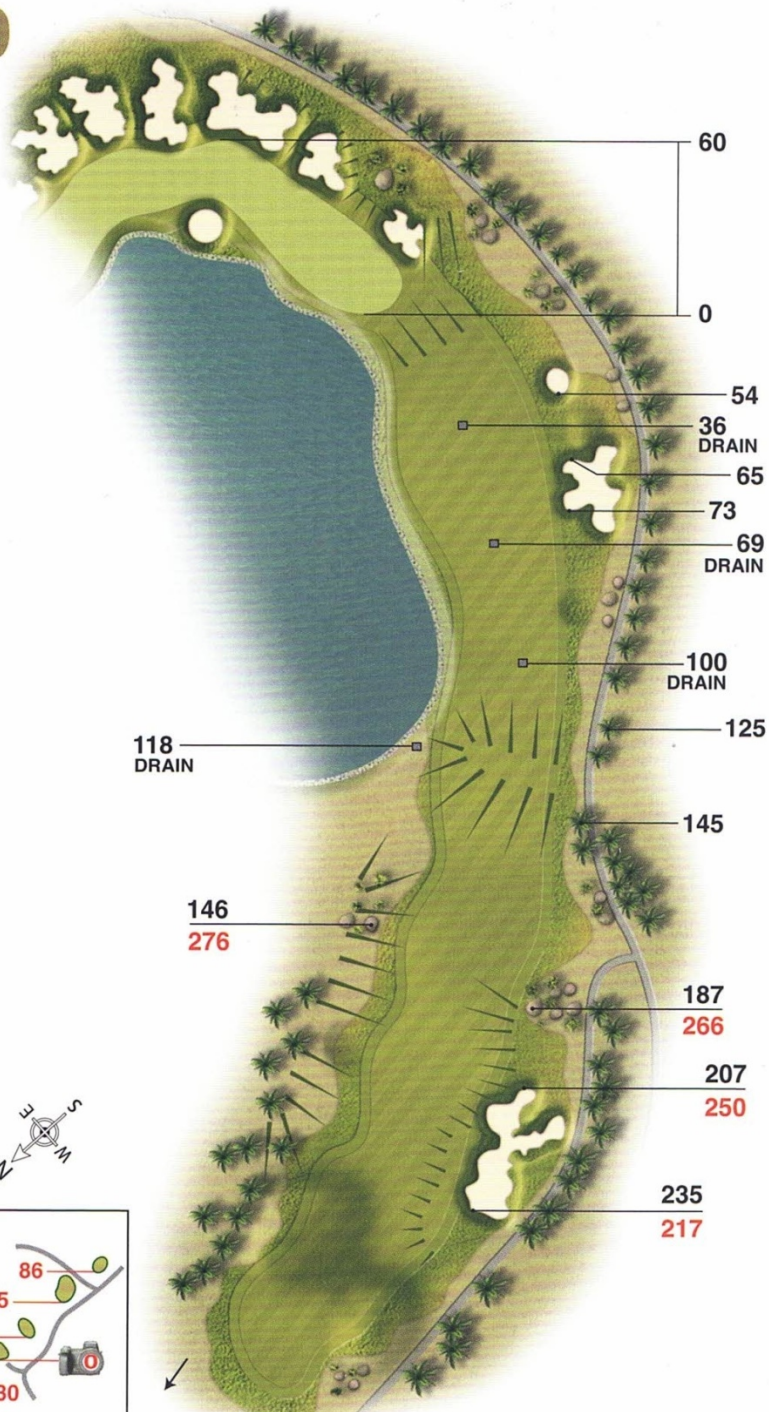

8

339	316	288	274	257
4	4	4	4	4

A short par four with the green cut into the mountain, therefore you have rocks on three sides of the green! Play your approach with care.

499	466	448	412	383
5	5	5	5	5

9

Super par five to finish the first nine with water on the left side of the fairway and green. Play safe to the right with your second shot to give yourself a chance of a birdie.

Quite a narrow par 4 with bunkers on both sides of the fairway. Try and leave your approach shot below the hole otherwise you could be left with a very difficult putt!

Fantastic looking par three. The danger here is the green is only half as big as it looks. Tough tee shot, try and aim for the right of the green.

Straight uphill par 5, play it as a good three shotter up the left hand side of the fairway.

Another superb par three built into the side of a mountain. Don't miss the green short, long, left or right or "it's another ball please!"

Magnificent views from this elevated tee. Again water on the left of the fairway and green. A severely sloping fairway best suits a low running tee shot. This hole gives the longer player a great chance at reaching the green in two.

The last of the par threes with three levels on the green, as with a lot of the greens try and leave your tee shot below the hole.

316 4	293 4	274 4	235 4	235 4

A short dogleg to the right. Play away from the bunker on the right and make sure your second shot reaches the green if not; it will roll back to your feet!

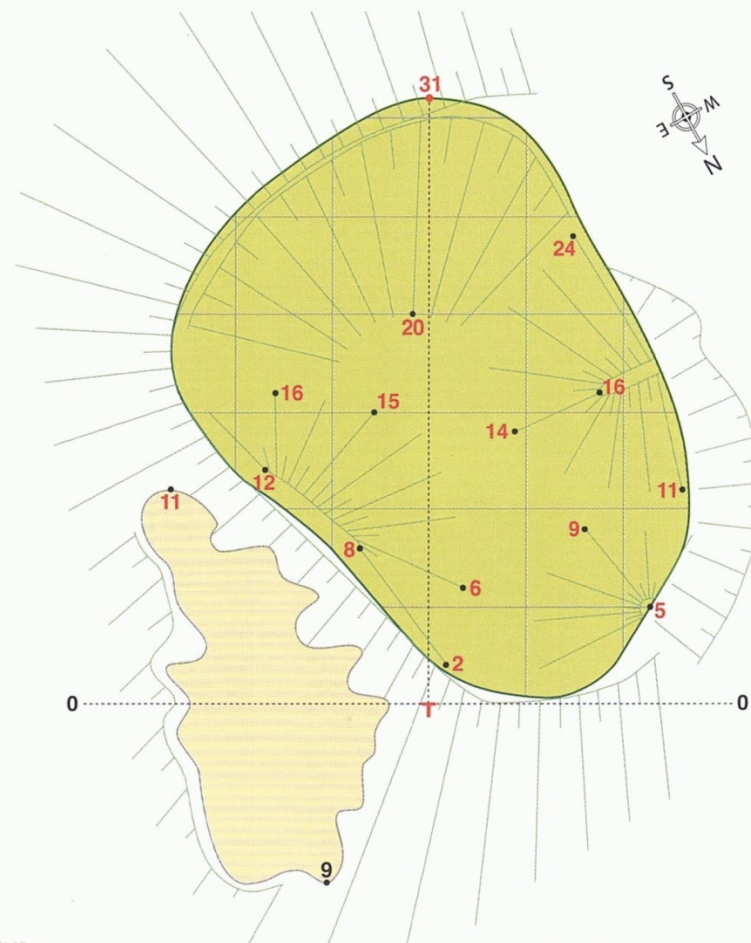

17

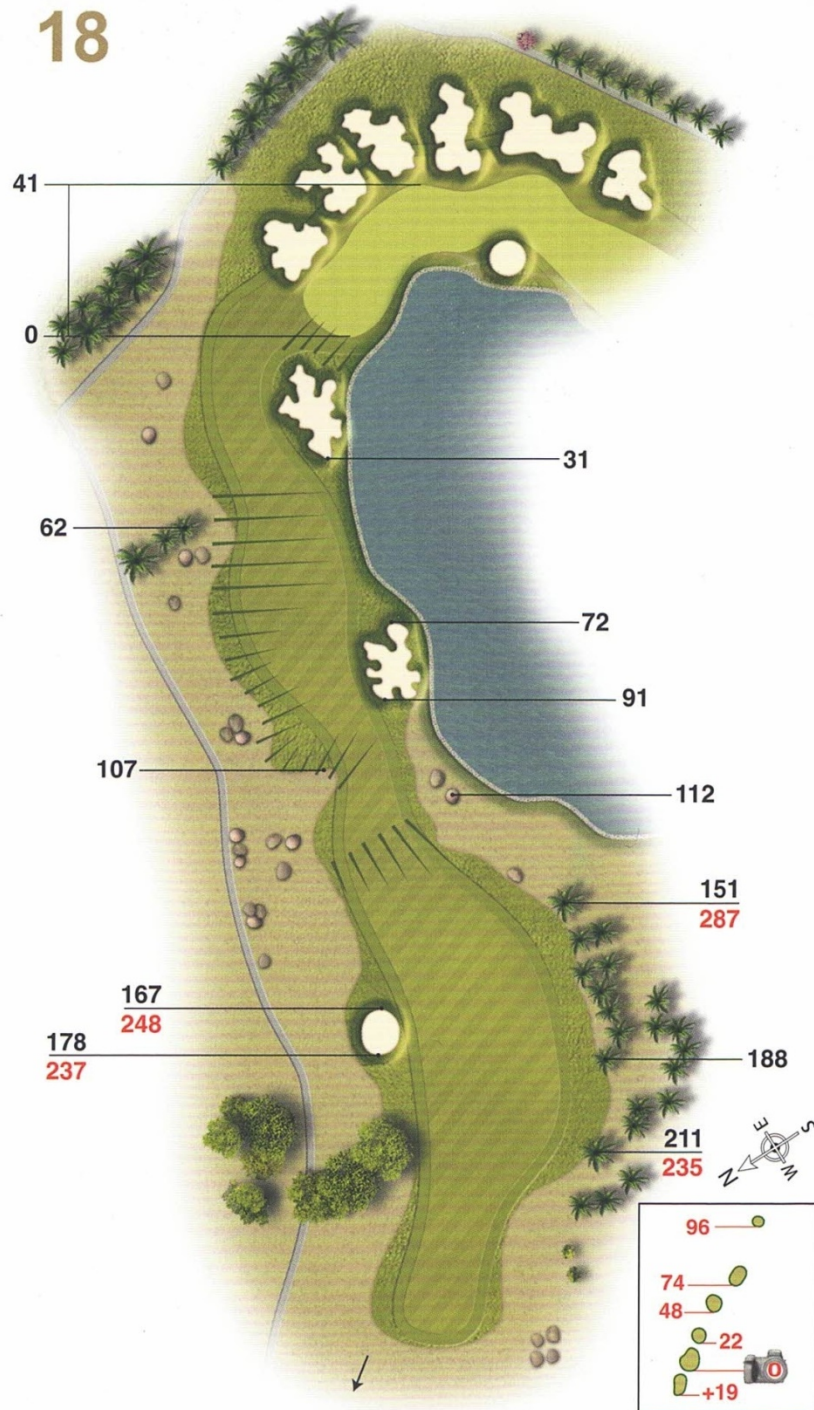

17

325 4	304 4	274 4	263 4	263 4
----------	----------	----------	----------	----------

A par 4 with a narrow fairway. Accuracy off the tee rather than length is vital. A tough little hole, leaving this hole with a par is very satisfying.

Good finishing hole, aim at the bunker with a small draw and your chances to reach the green in two increases. However the lake in front of the green is full of golf balls from people who tried!!
