HOW TO USE YOUR Kaya Eagles Course Planner

All black figures show distances to the **CENTRE** of the green.

Driving Distances - these figures indicate the distance to the point from each tee position.
 All other features are clearly labelled throughout the planner.

Enlarged green views are shown for each hole along with detailed dimensions.

◆ 27 metres

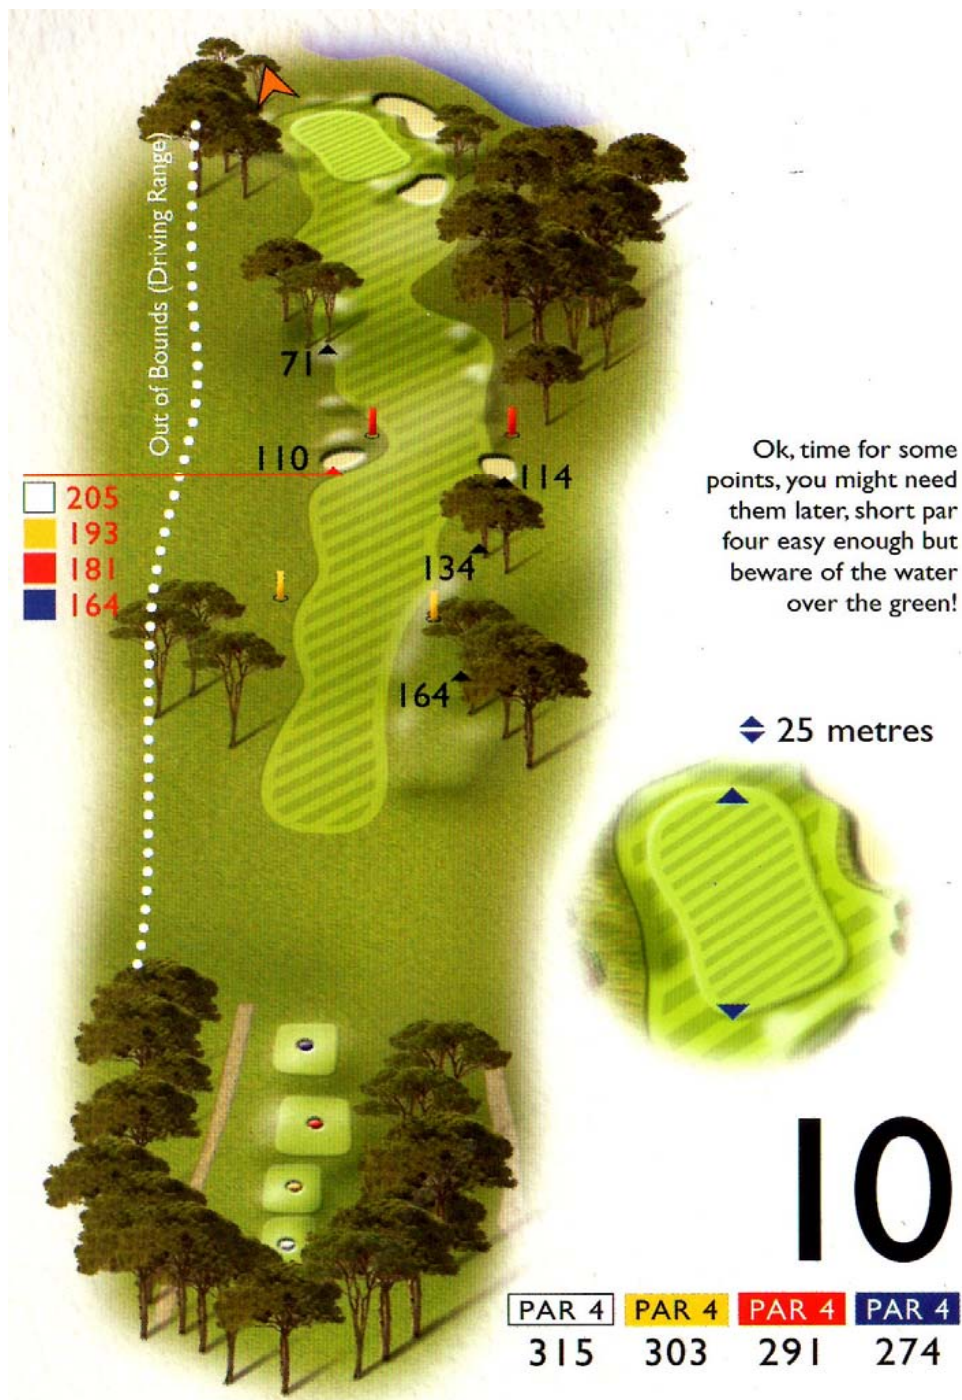

Again club selection important here, due to the high tee position often one club less will find you in the middle of the green here.

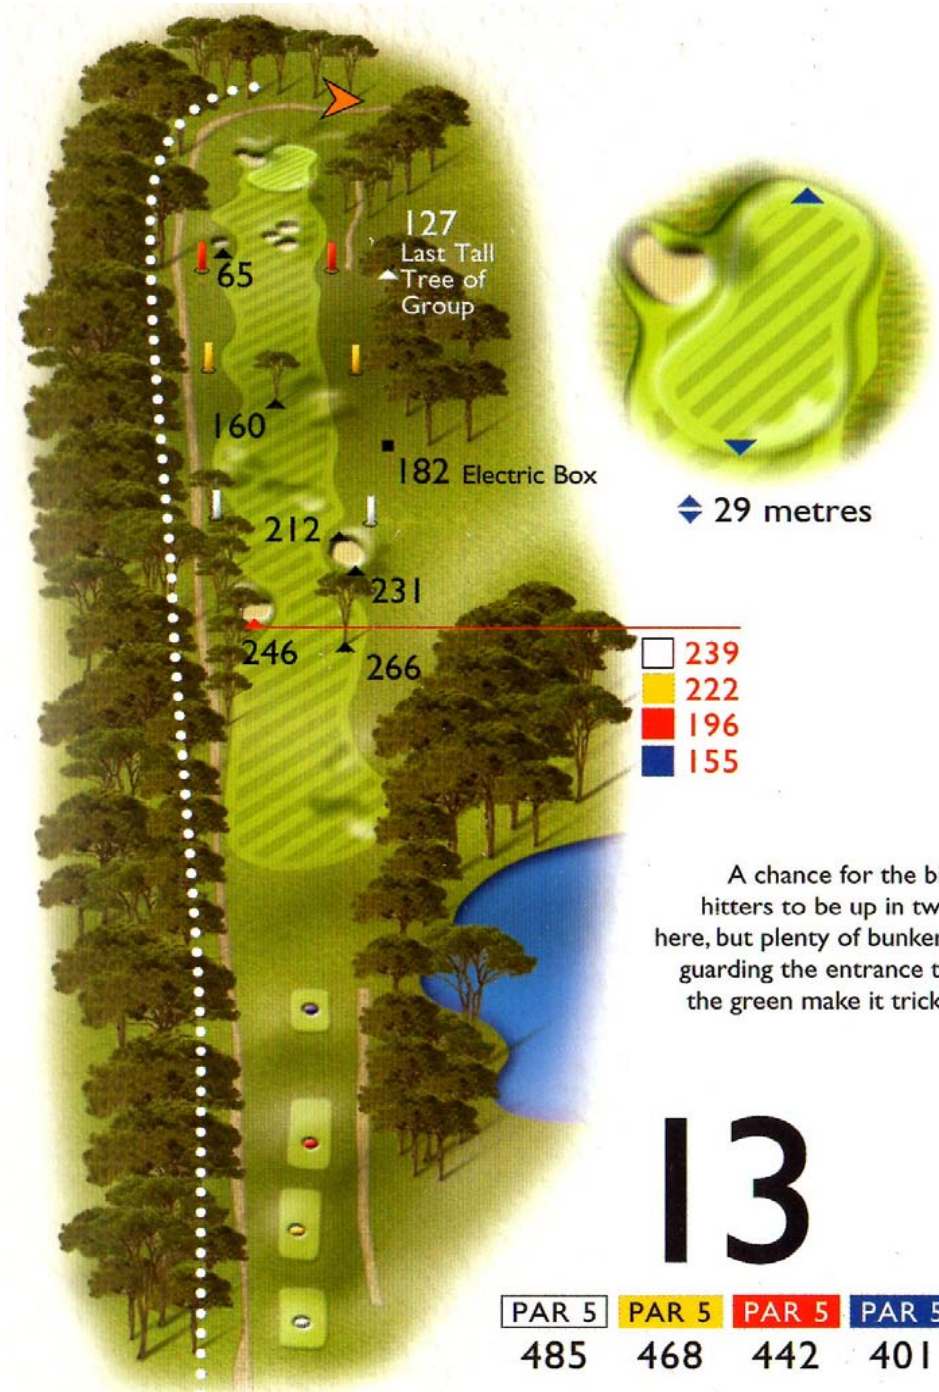

◆ 25 metres

Yes, it was too nice a tree to cut down! More room left here from the tee shot than you think, left also opens up the green, especially if I put the hole tight on right side!

Tight drive, stay left even though the hole heads right as the lake cuts back behind the bunker on the right. On a clear day a beautiful view into this green with the mountain range behind!

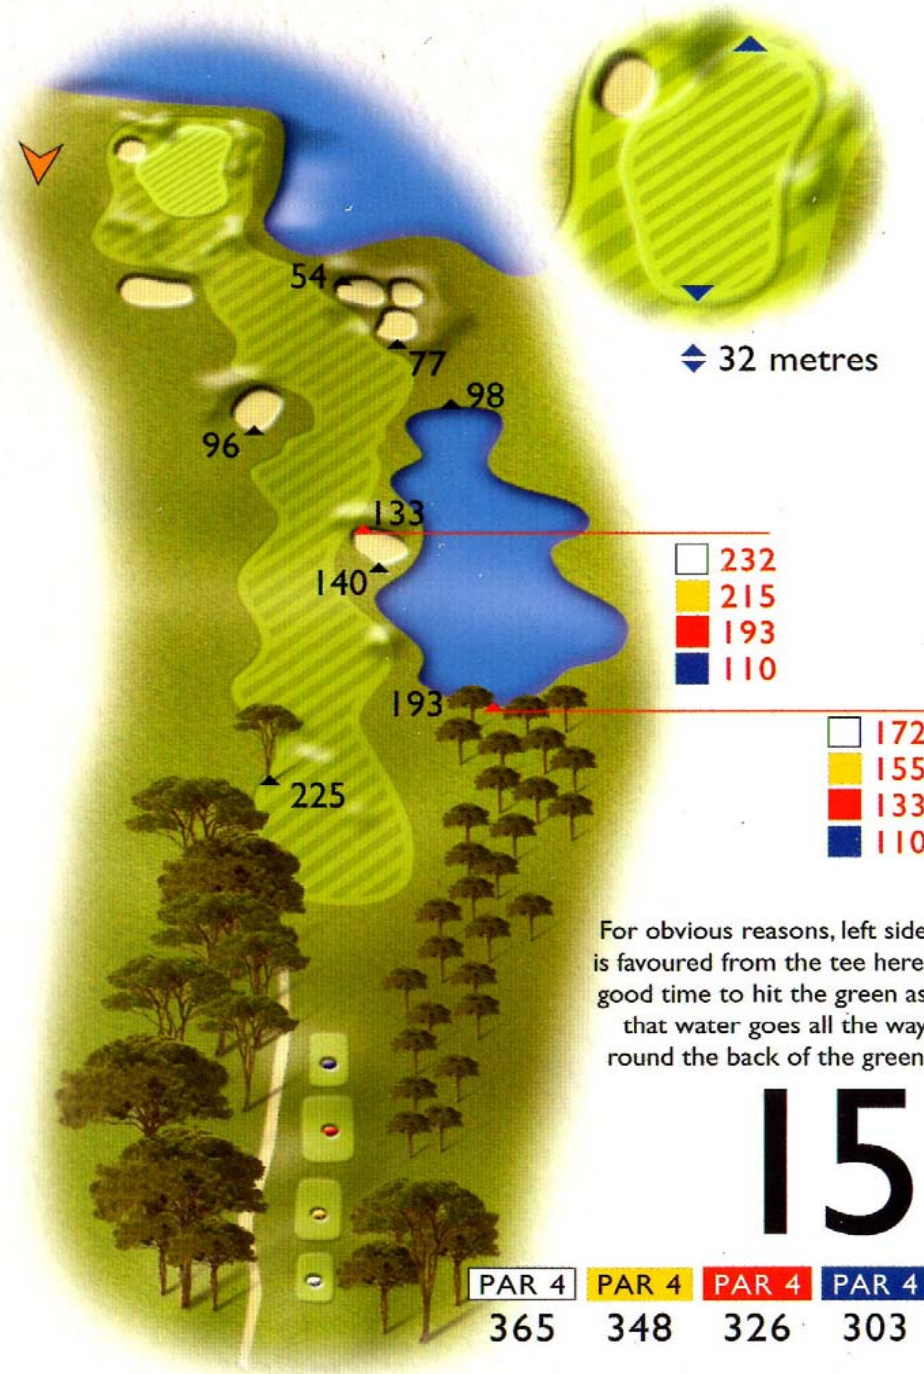

Another long par 3 usually into the wind! I hope we've been kind and put the tees forward for you here.

Finish in style, well that's up to you! Good test to finish, get as far down as possible, of course keeping straight, to open up the fairway for second shot leaving a third shot into the well guarded green, don't worry all those people having a beer on the terrace aren't watching YOU!
